THE PLATEAU COLLECTION

CUSTOM BUILT MEMORIES

The timber-framed homes of the early Appalachian settlers serve as the inspiration for the Jasper Highlands Homes Plateau Collection. Ranging from 1,450 to 3,300 square feet and completely customizable, these homes effortlessly combine rustic old world character with modern interiors and amenities.

The Jasper Highlands Homes Plateau Collection takes an organic approach by drawing directly from Craftsman, American Farmhouse, and European influenced architectural styles. The result is a community that has the depth, variety and appeal of a historic mountain hamlet that has evolved naturally over time. Jasper Highlands provides the ideal canvas for this rustic community design with its wide-swept vistas and breathtaking views. The goal is to build as authentically and efficiently as possible. We have a tremendous amount of respect for the beauty of this land, and our homes are inspired by that beauty, and their designs are derived from its history.

Jasper Highlands Homes is a full service in-house design and build firm that prides itself in exceeding our customers discerning tastes and expectations. We can customize any home at any size, and we thoroughly enjoy the process of collaborating with homeowners to make sure each home we build is perfect for the souls that will fill it.

It's hard not to ask yourself, "Which one would I fit in best?"

CATSKILL

A mountain home with a small footprint and big personality.

This is Jasper Highlands Homes' smallest design, featuring a minimum build size of 1,450sf; but don't let the small floor plan distract you from the huge amenities. The master suite has an enormous closet, a garden tub, large shower, and 6' double bowl vanity. The great room features 10' ceilings with exposed beams and a separate foyer entry with a conveniently located coat closet and mud bench. The breakfast room opens to a covered wrap-around porch and the open rear deck is accessible from both the master and great room. The Catskill has plenty of outside space to take in the view.

CUMBERLAND

A home built for comfortable mountain living: everything you need and nothing you don't.

The Cumberland features classic interior amenities in a small package. The entry hall leads to a private den and the connected living/dining/kitchen space features exposed beams at a 10' ceiling height, creating an open, rustic feel. The rough hewn ceiling beam with hanging pendant lights above the raised bar is a standard in all of the Plateau collection models. The Cumberland is a mid-sized home that boasts full-size entertainment capacity.

JASPER

A home for the whole family. Entertain with ease, Jasper style.

From the moment you step foot inside of a Jasper, you are instantly struck by two things: light and texture. With 10' ceilings throughout the home, large, exposed rough hewn posts and beams, and a kitchen bar built from reclaimed 300 year old heart pine, the Jasper brings together the finest of materials and details into a stately, polished package. With a full-coffered great room, an open flow kitchen, and over 1,000sf of covered porches, this design delivers mountain living in its highest form.

BLUE RIDGE

A mountain villa with a wide open floor plan, custom built for wide open spaces.

The floor plan of the Blue Ridge hinges on a dramatic two-story vaulted entry with dormer windows that shed light throughout the home. With large rooms and broad doorways, the Blue Ridge exemplifies the open floor plan style of living and entertaining. There's clear sight lines from almost every corner of the home, and the upstairs loft overlook shares its space with a generous ensuite, introducing a full second master to the Blue Ridge model of the Plateau Collection.

HIGHLAND LODGE

A castle in the clouds: luxurious, regal, and refined. The Highland Lodge from JH Homes.

The Highland Lodge is the largest model in the Plateau Collection. This model features an enormous great room, measuring 21'x48' with vaulted ceilings at 15' and up. This lodge space can be divided by placement of furniture and other build customizations, and any orientation will be benefitted by angled corners to the rear of the lot that captures the view in every direction.
